

## CHURN VALLEY HASH HOUSE HARRIERS.

Run No. 1533      The Bear, Bisley. Hare. Mr Sheep.

Sunday February 26<sup>th</sup>.

Bootiful morning, bootiful folks, bootiful dogs, no perhaps a little over the top. But a lovely day for a dash?? through the countryside.

Sixty folks plus and a record attendance of thirteen dogs, good grief, imagine the dog pool!!!! I knew that Pole Pussy would know how many folks were in attendance but Knackered checked too, I did notice he lost count at 20, (fingers and toes spring to mind).

Mr Sheep gave us the run down, few animals, not many uphill, so therefore not many downhill. Chris was given a quick course on the "T" bars, he really should know by now he is a grown up, I think. Off we all did dash, frightening various little children, on a nice quiet Sunday morning walk, with our calls of "on, on". Through the outskirts of Bisley into the wood, then over the top, turning left eventually arriving back at The Bear. I can't report on very much as I was soooooo far back it was nearly bedtime when I got back to the pub.

I can report that Caviar and Sheena rescued a little dog that had lost his babysitter, good on them. That meant that they did two and a half trails. Nice to see Averil back and running her usual quick fire bursts of action.

Interesting après, we were all stuffed into corners, right place for us some would say, we disembarked into the garden, which was very sunny and had lots of chit chat. Good run thank you Mr Sheep.

Bags went to Singeing for not being gentlemanly, oh!!! naughty, naughty. Sheeps head went to Fireraiser cause he came to hash in his slippers, I don't think he had his pyjamas on but who knows, and I didn't want to check. That means that he writes the mag for his run mmmmmmm!!!!
