

# Churn Valley Hash House Harriers

Monday 2<sup>nd</sup> April 2012 - Catherine Wheel Bibury

Run 1538 - Hares Richard & Phil

What better way to start the first Monday hash than to cycle to the venue. How wrong can you be! Up hill all the way and verbal abuse from booed off and knackered.

According to hash cash 19 runners turned up, stragglers still missing and GOM and GOMMESS on holiday again!

Caviar called us together, hares gave normal speech, 3 trails and keys were behind the bar, then we were off. Right out of the pub down the road and then into fields and more fields, only one split for the mediums which meant I can only write about 3 hashers.

You think they would behave running with the sheep's hat but no there was short cutting, going over bars to avoid water, chatting. The only thing they got right was the direction and left me to check the wrong way.

Back to the pub, still light, need to get changed a bit chilly after bike ride and run but no Special K got a lift with Dick the

Zip who took his keys with him. Half an hour later and frost bite about to set in he returned.

Many thanks to a lovely couple for a lovely trail, a lovely evening, lovely beer, lovely company, a lovely evening was had by all.

No bags this week, only 3 candidates for hat

1. SpecialK (not acceptable as I need help to type this)
2. Donkey for all reasons explained above
3. Clipboard for verbal abuse from 9am to 9pm insinuating that I was getting fat again when I had actually lost 4lb.

I will leave you to work out who got the hat
