

CHURN VALLEY HASH HOUSE HARRIERS

Run No: 1544 Monday 21st May 2012

Cat and Custard Pot Shipton Moyne

Hares: Dr Doolittle and Pickles

A good turnout on the warmest evening so far for the Hash. It took a while for the masses to congregate, a few late arrivals for example Avril who passed the pub at speed before parking up! For many this was their first visit to this pub (GOM had some recollection that we had been here before but could provide no evidence) in what was very 'high class' surroundings, would we expect anything less from our two hares...answers on a postcard please!

All were called to order for the much anticipated briefing which explained that we would expect to meet many forms of wildlife, particularly expensive horses, a reflection of the area that we were in.

The Hash commenced...or did it...after sometime the route was discovered and off we did go. The initially stages comprised of running (that's what I thought it was) on some very well prepared paths, freshly mown with evidence of Dog ****. Once out of the village we experienced fantastic country side and the poshest stiles I have ever encountered in my 20 plus years of hashing! A few hazards were encountered including an excellent water crossing which most conquered with the usual enthusiasm expected. After crossing the 'rape' field which caused some to allergies (your scribe included) we made a rapid for some return to the pub where all were able to enjoy the après outside.

THERE WERE NO BAGS OR SHEEPS HAT, Mustash and Dylan AWOL, however a couple of down downs for the hares due to their litter lout behaviour....lucky to be punished with only half a pint!

Excellent run!!
