Mag No. 1546. Hare Musthashless. Monday 4th June 2012

Seems like ages since I wrote a mag and I'm not sure why I got the honour of inventing this one, something to do with "Last Gorn standing" I think according to Musthashless. Or maybe he thought I would be nice about his run!!

Obviously lots of hashers had celebrated the Diamond Jubilee too heavily so it was a small, but elite, band of hashers that assembled in Minch market place on a, say it quietly, dry warm evening.

Quick instructions from the hare and we were off.

Off across the common we hashed. Anorak soon decided that as Kippernik, Cos and Lightweight were walking she would join them and exercise her jaw instead of her legs!!

Lots of checks and a few regroupes kept us together despite a long stretch along the canal. The hare's reason for this long view of the Stroud waterway was so we could see the work being done on it, very kind.

At one regroup a builders trowel was found, no wonder the piles of sawdust trail were so neat.

I found out later that we didn't mark this circle so the walkers had to abandon the trail. Thankfully Cos knew the way back.

Just near the end of the trail the hare blotted his copybook by getting a T the wrong way round, how many times does Caviar have to show people??

We had been promised a short trail with no long split and for once, shock horror, the hare told the truth, by 8.10 we were on Inn.

APRES

Nial the landlord was very welcoming as usual and the beer was good, he also laid on some great food at £4 a head with the cash going to charity. Well-done Nial.

Thanks to Musthashless for a jolly nice hash.

The error of his T's was pointed out with a down down.

Bags were awarded by Musthashless to Mark Williams for using his mobile on the hash.

Sheeps hat was awarded to Beth for the simple reason she has never scribed a mag.
