Run No 79, 23/12/12 Mince Pie Run.

Venue, Carpenters Arms & Gerald's House.
Hares Gerald & Martin Scribe. Firecracker

Catering Officers. Marion, Sheena, Zandra & Chris

I will start off with a proper "thank you" to Gerald and Martin for three good trails. De plannet and laid under terrible weather and underfoot conditions. Also our thanks to Marion, Sheena, Zandra & Chris Douding for laying on a smashing mince pie stop at Marion's house, it was lovely. Now for the facitious stuff.

It was a fine morning, (a miracle considering all the duff ones we have had recently) that saw about about 40 folks gathered for this hash, half of them regular hashers, the other half being Phil Salmon and his family and the surviving members of both Union & Exington Tug-o-war teams and friends. Carver deputised me to do the shouting so she could save her voice.

Gerald gave us the brief and sent us on our way. The three trails were pretty well laid. The whole hash only got lost once at the farm. Conditions underfoot were atrocious, Claude did at least one full length stretch in the mud, little Ollie (Tonina's son) 10 years old, slipped over 6 times in the field going up to Marion's house, still the little chap kept getting up and going on. Anyway, enough of this took about the hash. We had a lovely mince pie and drink stop at Marion's house.

Apres Hash went well. Picnic outside the Dogs to Stallion even after being told he was in the middle and for 6 weeks. The sheeps had should have gone to Tonina for having a louder voice than Peggy Mount.
