

**CHURN VALLEY HASH HOUSE HARRIERS**  
**BMI Club - 10<sup>th</sup> February 2013**  
**Hares: Fireraiser, Blameless & Gerald**

Driving along saying to Special K, why are we going? Whose trail is it? Lets turn back.

We keep going and about 25 other mad people were already there.

Special K gathered everyone around and after the normal 3 trail spiel we were warned if anyone wanted to do the long they were on their own.

Off we set through mud, mud and more mud. People were slipping, sliding and Spearmint almost pulled me over trying to run uphill!

Ater an hour, due to hash rules on the long not being obeyed (waiting at re groups) there was suddenly only six of us. Shall we run up the road to the pub we cried no says Darling this way is much prettier, so of we go like sheep following her, 45 minutes later we find the on home, only for Darling to hitch a ride in Brian's car for the last half mile.

Meanwhile back at the pub someone who was following hash rules was Special K although concerned that I was missing was duly at the bar having the mandatory 3 drinks before going to look for me.

In spite of the weather and conditions a good time was had by all. The bags were awarded to a young girl, whose name I can't remember, for a misdemeanour I can't remember either. Brian was given the sheep's hat for giving Darling a lift.
