

Churn Valley Hash House Harriers

Run No. 1601 Monday 27th May 2013

Butchers Arms, Sheepscombe
Hare: Carloss

There was a real sense of deja-vu as Popeye, Battery Bunny, Beth and myself turned up at Sheepscombe for the second week running!

About 40 hashers gathered on what was a pleasant, dry evening. Tim welcomed Drainage back and Carloss briefed us on the trails. I was unusually walking rather than running, so put out a request for spies for potential sheep's hat candidates. Frank was unusually walking too, having discovered he still had his slippers on rather than his trainers! Carloss set off ahead of us to re-mark the shorts and off we all went.

The walk was fabulous and took us along the valley, through the National Trust "Workman's Woods" and back up the valley. We passed through a field with 2 adorable, inquisitive alpacas and through some lovely back gardens. Meanwhile we could hear the mediums and longs heading up the hill across the valley from us, so I assume the run was a hilly one!

Rocket awarded the Bags, but I have completely forgotten who to.

Sheep's hat was then awarded to Rocket. As I was relying on my running spies, it was hearsay that he committed numerous misdemeanours, though I know not what they were, sorry Rocket!

Sorry, short mag as off to pack for camping weekend now and the sun has come out.

Julie
