

## Run 1680 - Charleton Kings Club, Charleton Kings, Cheltenham – Carloss

A small group gathered ready for Carloss's run, with Dillion and Avril turning up just as the briefing commenced. Carloss announced that due to extreme conditions underfoot he had changed the trail at the last moment and laid two trails, one for walkers and one for runners.

We headed off and around the church grounds before heading through the back streets of Charleton Kings. The shorts split off fairly early and we looped around and about the streets before coming across them again. It was at this point that the runners split into two groups, one group following what they thought were calls of on-on only to discover what they could hear were the sounds of a football match. The rest dutifully followed the trail and headed off in the direction of Leckhampton Hill.

Across fields, through streets, across parks and along alleyways we ran, twisting and turning and eventually heading back.

Apres hash and the landlord had laid on a nice little spread which we consumed with ease. Sheep's hat is still absent and bags were awarded by Fireraiser to Bob for being a bad influence on the short's and getting them all to climb onto a wall and walk along it to avoid a large shoe sucking patch of mud.

### On-Ons
